General rules of hygiene during the Corona pandemic

Hamburg, June 2020

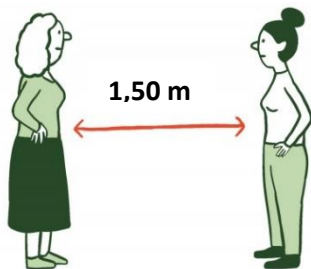

Dear women!

All of us want to stay healthy and we want to protect each other. Also we don't want the FLAKS to close because of a case of Corona. For this reason we ask you to comply to the following rules as long as you are with us:

1. Women or children who are sick are not allowed to visit the FLAKS.

2. Please understand that we have to write down your contact data because of the pandemic. Please calculate some time for this.
3. Please always keep a distance of at least 1,50 m from people who do not live with you in the same apartment/house.

4. Please keep washing your hands well and avoid to touch anything.

20 seconds

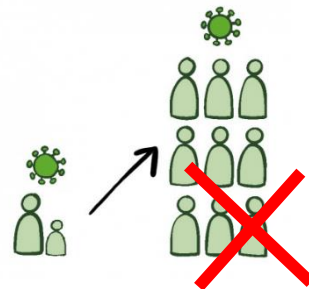

5. Please sneeze and cough into the crook of your arm.

6. Please wear masks.

7. Please take care that your children also comply to the rules. You are responsible for them. Children starting from 7 years of age need to wear a mask as well.

8. After you have went upstairs inside of the FLAKS building you need to leave through the emergency staircase.

9. Please follow further instructions of all those people who work for the FLAKS.

Thanks for your understanding!

Your FLAKS-Team
